

About Us

Re:discovery Software, Inc. (RSI) is based in Charlottesville, Virginia with a Western Regional Office in Boise, Idaho. Our team of museum and archives professionals plus software engineers has produced a collections management system with industry needs and ease of use in mind. With [nearly 30 years experience developing and supporting collections management software](#), Proficio is a time-tested and proven solution. New features are always being introduced and the software is continually upgraded as technology evolves. RSI holds a Schedule 70 Information Technology contract with the General Services Administration and is a Microsoft Silver Partner. Contact us to schedule an interactive demo of the software: (434) 975-3256 option 3 or sales@rediscov.com.

Proficio

Overview

Proficio manages every aspect of museum, archives, research library and archaeology collections, all in one system. You'll be pleased with the ease of use, intuitive user-interface, one-click access to tools, integrated media capabilities, powerful searching, and robust reporting.

Up-To-Date Software for Your Collections Management Needs

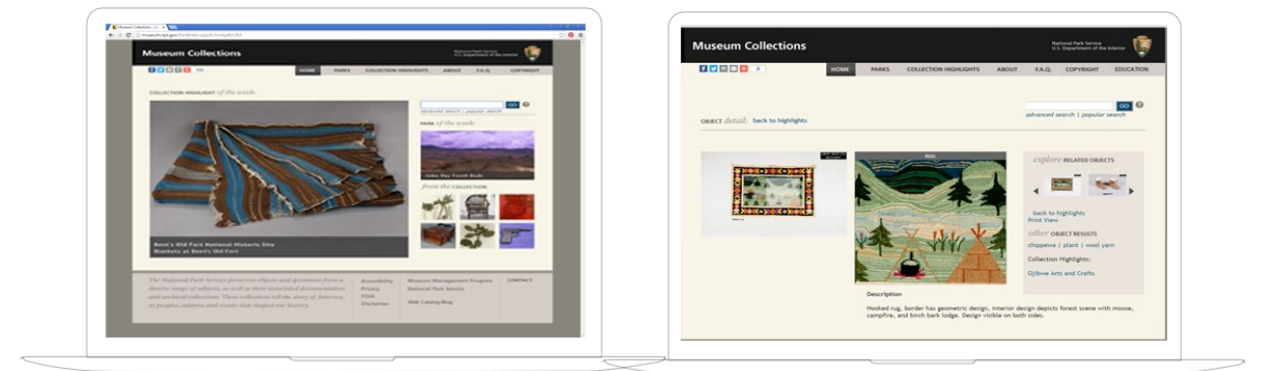

Use screens that match your collection, such as Art, Cultural History, Natural History, Archives, and Research Library. With your purchase you'll receive training and 90 days of free technical support. Our process for migrating legacy data makes the transition to Proficio as affordable and simple as possible. Contact us for more details.
